Welcome

My name is Maria and I've been a beauty therapist for over 30 years. As a teenager I suffered with pretty severe acne which completely knocked my confidence and left me with significant scarring. It led me to research and experiment with a whole range of products and treatments, some for the better, some most definitely for the worse, until I found solutions to my problems.

It was therefore only natural to want to help others to achieve the same results. True beauty shines from the inside out. It's not about vanity, it's about having the confidence to step outside your front door and face the world.

Having more recently started to experience the trials and tribulations of menopause, I made the decision to downsize my business to a new home studio. Here, I have put together a menu of relaxing but effective hands on treatments backed up with a touch of technology when required and by high quality, ethical British beauty brands, to offer specialised solutions to common problems, starting with your skin...

Skin First, Symptoms Second

Healthy, well-functioning skin responds best to treatments. Professional strength, individually prescribed products for a simple home care routine, treat your skin type first. They stimulate healthy skin function, restoring and maintaining your skin barrier; educating your skin to perform at its best.

Secondary to this, we are then able to quickly and effectively treat the visible symptoms. The symptoms are the things that you see on your skin. The things you want to address or change such as lines, pigmentation, scarring, blemishes and sensitivity.

I promise you will see great results if you only use your prescribed products at home but I would love for you to also enjoy my range of impactful but relaxing facial treatments carried out in a safe, friendly setting. A place to escape , to unwind and say 'hello' to comfortable, beautiful skin!

Book a consultation and begin your bespoke skin transformation journey with me.

Maria x

I am fully qualified, insured and registered with Stratford-upon-Avon District Council to carry out Cosmetic Skin Piercing and Electrolysis. I am MASCED accredited by national skin cancer and melanoma charity SKCIN and a member of professional Advanced Cosmetic Procedures body, Blemish Pro.

Please note that a booking fee is required to secure your appointment. This helps to protect my small business from last minute cancellations and no shows.

Facial Skincare

Dry-Oily-Dehydrated-Ageing-Sensitive-Pigmented-Sun Damaged-Acne-Rosacea...
Just a few of the skin care concerns I can help to improve. Using the Katherine Daniels range, I can create a bespoke package of effective, relaxing treatments and home care especially for you.

The Skin First Discovery Edit (90m £125)

Your first step on a brand new skin journey that will blow many of the myths surrounding skin care and help you achieve the comfort and confidence you are looking for.

In-depth skin consultation and analysis.
A look at the products you are currently using.
The Skin Bespoke Treatment.
Radiance & Revival or Comfort & Calm curated mini collection to take home.
Uncomplicated, easy to follow, personalised home care prescription.
Optional treatment plan to suit your time and budget.

The Ultimate Skin First Discovery Edit (90m £250)

All of the above plus a prescription skin boost serum targeted to your main skin concern, our fabulous Daily DNA Defence SPF to protect your skincare investment .

The Seasonal Skin Care Review (20m £25)

For existing skin care clients, let's review your skin seasonally to ensure you maintain it in it's best possible condition, whether through home care alone or with additional salon treatments. Redeemable against skincare products purchased on the day.

The Prescriptive Facial Edit (60m from £65, 90m from £95, 120m from £125)

Not sure which facial to choose? Then let me use my expertise to tailor make a treatment just for you based on your time, budget and personal preferences.

Treatments that may be incorporated into your facial include:

Steam & Ozone, Resurfacing Peel, Ice Globes,
Fruit Enzyme & Anti-Oxidant Masks, Collagen Masks,
High Frequency, Nano Needling, LED Phototherapy,
Eye Treatments, Scalp Massage and more...

Advanced Skincare

Want to take your skin another step further? Microneedling is a minimally invasive procedure featuring the BeautyLab skin pen, involving small, sterilised needles puncturing the dermis of the skin. This helps stimulate natural collagen and elastin production, tightening the skin for a more youthful and radiant complexion.
Take as a one off a few days before a special occasion, as a monthly course for long term improvement or alternate with your regular, hands on facials.

The Microneedling Skin Reset (50m £110)

Fine lines, wrinkles, open pores, uneven pigmentation, acne scarring, dull, sagging skin? Kick start it into being firmer, brighter and clearer. Includes microneedling with 4D Hyaluronic Acid + B5 Serum, Rapid Recovery Bio-Cellulose mask and Aftercare Duo Set to take home.

The Ultimate Microneedling Skin Reset (75m £150)

Treat yourself to all of the above plus up to 3 power serums focusing on dehydration, ageing and pigmentation, nanoneedling anti-ageing crystal eye & lip plumping treatment and a relaxing LED phototherapy session to further target your skin concerns.

.

Nanoneedling is a gentler, non-invasive procedure, suitable for all skin types, focusing on the epidermis (top) layer of the skin. It restores hydration levels by enhancing product absorption and promoting cell turnover to calm, plump and smooth. Can be taken as often as weekly between microneedling treatments, as a course on it's own or alternate with your regular, hands on facials.

The Nanoneedling Skin Boost (40m £80)

Want to treat fine lines especially around the eyes and mouth, sensitivity, open pores, blemishes and/or uneven skin tone? Includes nanoneedling with up to 3 power serums and a prescription mask suitable for your skin type.

The Ultimate Nanoneedling Skin Boost (75m £130)

Treat yourself to all of the above plus anti-ageing crystal eye & lip plumping treatment, Rapid Recovery Bio-Cellulose mask and LED phototherapy to further target your skin care concerns.

Both microneedling and nanoneedling significantly aid the introduction of high-performance actives to deliver real, visible results. and can be incorporated into any skin care regime.

Blemish Removal

Little blemishes can have a big impact on how you feel about your skin. If an unsightly or uncomfortable blemish has been bothering you, professional, non-surgical removal can offer a simple and cost effective solution.
Maybe you have already had it checked out by your GP who's told you it's nothing to be concerned about but you would still like it removed?
I specialise in Advanced Cosmetic Procedures (ACP), an advanced form of electrolysis that allows a wide variety of blemishes to be treated with precision.
A very fine sterile probe is used together with a controlled electrical current to target the blemish while minimising disruption to the surrounding skin.
Because everyone's skin and every blemish is different, I'll explain what you can realistically expect during your consultation.
With the removal of minor cosmetic blemishes often no longer available on the NHS, this has become an increasingly sought after service.

Blemish Removal (ACP) Consultation (30m £25)

Redeemable against treatments booked on the day. If I am in any doubt about your blemish I will ask you to get it checked out by your GP or a dermatologist prior to your treatment.

Potentially treatable blemishes include moles, skin tags, blood spots, milia, age spots, warts, verruccas, small sebaceous cysts, seborrhoeic keratosis, thread veins, spider naevi and more. Ages 18+

Please book an initial consultation and we can take it from there. You are welcome to send me a clear photo of your blemish for free advice beforehand.

Treatment times from 15 - 30 minutes,
Prices from £75 per treatment.

Map My Mole Clinic (1 Blemish 30m £75, extra blemishes from £35)

Concerned about a mole or blemish? I also offer Mole/Blemish Screening in conjunction with Community Dermatology, giving us access to UK consultant dermatologists for an opinion on your blemish in as little as 24-48 hours.
